EDUCATION

2024 – Present **Bachelor of Technology (Information Technology)** — Shri Vishnu Engineering College for Women CGPA: 8.9

SKILLS

- **Programming Languages:** C, Java, Python
- **CS Fundamentals:** DSA, DBMS, OS, OOPS (Java)
- **Operating Systems:** Windows, Linux
- **Databases & APIs:** SQL, MySQL, REST APIs (Basic)
- **Web Development:** HTML, CSS, JavaScript
- **Tools:** VS Code, Git, GitHub, Excel, Google Colab
- **ML:** Regression, Classification Algorithms
- **Soft Skills:** Communication, Team work, Team Management

PROJECTS

GitHub Activity Tracker 🔗

- Designed a GitHub analytics application using GitHub REST APIs to fetch and analyze data from **5+ repositories** and **100+ commits**.
- Developed Python scripts using Pandas to parse GitHub contribution logs, resulting in a 30
- Tested API integrations and data pipelines to ensure accurate data extraction and reporting.
- **Tech Stack:** Python, Streamlit, GitHub REST API, Pandas

Campus Navigation Assistant 🔗

- Built a web-based campus navigation system covering **10+ campus locations** with visual route guidance.
- Implemented navigation logic and UI components using HTML, CSS, and JavaScript.
- Tested application responsiveness and usability across desktop and mobile devices.
- **Tech Stack:** HTML, CSS, JavaScript

Smart Health Risk Monitoring System 🔗

- Implemented a machine learning-based health risk classification system using structured health datasets.
- Performed data preprocessing, feature analysis, and model training using Python and Scikit-learn.
- Evaluated model performance using training and validation datasets across **multiple model training iterations**.
- **Tech Stack:** Python, Machine Learning, Pandas, NumPy, Scikit-learn

TRAINING & BOOTCAMPS

- **Amazon Future Engineer (AFE) Bootcamp** (2024–Present): Selected for **Phase 2 (Data Structures & Algorithms)** after completing Phase 1 in **Python and AI fundamentals**; awarded a program-sponsored laptop.
- **Algorithm Design Techniques Program** — Chennai Mathematical Institute (CMI): Selected for a competitive training program focused on **algorithmic thinking and problem-solving**.

ACHIEVEMENTS & CERTIFICATIONS

- Open-source contributor in **Hacktoberfest 2025**.
- NPTEL Certification: **Introduction to Machine Learning** (IIT Madras).
- **FFE-Tesco scholar** and **SheFi Season 15 Scholar**.
- Earned **100 Days of Code badge on LeetCode** (2025).
- Completed French A1 Certification (Global Language Solutions).

HACKATHONS

- **Bharatiya Antariksha Hackathon 2025 (ISRO)** – Designed an AI/ML-based early warning system to detect tropical cloud clusters using INSAT-3D satellite data.
- **Smart India Hackathon 2025** – Architected an IoT-based greywater filtration and monitoring solution with optimized system data flow.

CODING PROFILES
